Niesen -  
The Swiss  
Pyramid

N

NIESEN

**“Ufe Niese cho gniesse!”** means in Swiss German to enjoy on the Niesen!

The birthday of the Niesenbahn is **15 July 1910**, when the first guests travelled up the mountain. Since then: ‘One mountain, one railway, one pub!’. Although the stately **Berghaus Niesen** was built 50 years BEFORE the railway, in 1856!

On behalf of the management team and our 80 or so dedicated co-hosts, I would like to welcome you to Berghaus Niesen!

The 116th Niesen season lasts until 8 November. In fine autumn weather we will try to extend it again ‘until winter sets in’. In addition to the major investment of CHF 4 million of the last few

years can be found at [niesen.ch/umbau](https://niesen.ch/umbau) can be read. Our Head of Operations and Technology, Andreas Wiedmer, offers ‘Gschichtefahrte’ organised.

### «Glaceneit” from TRANSfair

Whenever possible, we buy locally and regionally. The **supplier card** at the back of the menu provides information! That’s why we have ice cream from Thun: the social foundation TRANSfair

also produces ice cream. For over 25 years, TRANSfair people who are particularly challenged, mainly for psychological reasons and thus an organised daily structure and social participation.

social participation. This fits in with the **social**

**sustainability of the Niesenbahn**. That’s why we have

‘Glaceneit’ ice cream on offer. Prepared with fresh fruit, ingredients from the region and from Switzerland, without preservatives or colourings.

### Niesenbier, a real “local”

Since 2020, the local craft beer brewery “Frutigbier” has been brewing its own “Niesenbier” for the Niesenbahn. Our beer has 5.2% alcohol and is available in 33 CL glass bottles. Also **in kiosks as a gift**, for example in a six-pack. A traditional **red ale**, brewed with crystal-clear water from the Niesen mountain range and brewed with love and passion in Frutigen. If you look closely, you can see the brewery from the Niesen. It couldn’t be more local. For a must for lovers of regional specialties! - Specially selected by us so that women can also enjoy it.

### Niesen Coffee—you can only get it here

Together with the coffee roasters from the Engstligental, we have developed an **exclusive coffee blend**. It contains exclusive fair-trade Arabica coffee beans from the farmers Luis Pascoal and his family from Patrocinio, Brazil. The Peruvian beans come from over 600 smallholder farmers in the Cooperativa Cafetalera Atahualpa, located at an altitude of approximately 1,800 meters above sea level. The coffee is certified by Bio Suisse (Bud). This product clearly reflects the team’s passion for quality and regional value creation, as well as for traditions and stories.

### Together against waste

Since 2020, we have been using “KITRO devices” to **analyse food waste** from the restaurant and kitchen. In 2025, this resulted in 1’885 kg of avoidable food waste (2024: 2’479 kg) worth CHF 13’427 (2024: 18’749). Further measures to reduce waste are derived from the results.

### Our precious water

Spring water can be found along the entire Niesen chain up to around 1,800 meters. There are no springs above. That’s why we pump the high-quality drinking water from the Niesenalp at 1,750 m to Niesen Kulm in a reservoir at 2,355 m above sea level. In the Berghaus we offer the most **valuable Niesen water**; with or without carbon dioxide. - Cheers!

Your hosts:

**Stefanie Maurer**, Stv. Manager Berghaus Niesen Kulm, **Denise Schmid**, Head Chef, **Erika Schneider** and **Jael Perner** Chef de Service and the whole Berghaus team in the kitchen, service and on the floor. Urs Wohler, Managing Director
